MICHILDSUPPORT CHILD SUPPORT CALCULATOR

Try out [Michigan's child support calculator](#) to calculate child support. Federal laws require the use of a statewide formula for calculating child support. State law requires the use of the [Michigan Child Support Formula \(MCSF\)](#) to calculate child support. The support calculation provided by this Calculator is an estimate, not a recommendation or court order.

It takes about 30 minutes to create a child support calculation. Be sure to have income and parenting time information available before you start. Learn more about FOC child support services and options [here](#).
